

Open Access Funding Request Quick Reference Guide

1. The author MUST select their institution at the time of article submission. If the article is not affiliated with the institution included in the open access agreement, the CCC RightsLink transaction will not prompt them to request funding from that institution.

2. At manuscript acceptance, the author receives an email invitation to enter the Journal Publishing Agreement (JPA) Tool. This tool interactively drives the author to the appropriate JPA based on journal, agreement affiliation and author response.

Do you need or wish to purchase Open Access (for example, to comply with certain licensing requirements such as Plan S or other funder requirements*)?

- Yes, I would like to purchase Open Access. I acknowledge that I am **required to pay a licensing fee** for a public use license. This licensing fee may be covered by an existing institutional [Read + Publish Agreement](#) with ACS.
- No, I do not want to purchase Open Access

* If you are uncertain about licensing requirements, please contact your funder agency for clarification.

The table below includes any funding requests that have been matched to one of your special billing profiles.

APPROVE When you approve funding for a manuscript, the transaction will be completed, assigned an Order ID, and when a balance is due, included in your next invoice based on the schedule defined in that agreement's profile.

DENY If you deny funding you will be prompted to provide a deny reason to inform the author of your decision. The author will have the opportunity to self-fund the transaction, resubmit for funding based on your deny reason, or elect to publish under a subscription model, as available.
